Energy Conservation Award

## ABOUT US

Since 1992 the brand name 'SPINNER' stands synonymous with quality & customer satisfaction. We employ cutting edge technology, strong emphasis on innovation, reliability & quality of our products, integrity and customer service throughout these years.

A strong emphasis on Safety and Healthy Environment is what makes us stand-apart from our competitors, and our production facilities are testimony to this. Spinner group has bagged many projects throughout Kerala State and we are also suppliers of Power Transmission Equipments to KSEB.

# **SPINNER PLASTICS INDUSTRIES LIMITED**

---

## **UPVC PIPES**

Spinner Group of Companies engaged in the manufacturing of Poly Vinyl Chloride Pipes at Pomala, Thrissur District in Kerala

---

## **HDPE PIPES**

Manufacturing of HDPE Pipes at Industrial Development Plot No: 26 Peringandoor, Thrissur District in Kerala

---

## **SOFT UPVC PIPES**

Flexible Hoses are manufacturing at Industrial Development Plot No: 2 Peringandoor, Thrissur District in Kerala

---

## **RAIN WATER GUTTER**

Spinner Rainwater gutters (Both Square & Half rounds) are designed for rigidity, longevity, smooth flow of rain water.. for years to come.

---

## **LINE SPACERS**

PVC Line Spacers are Manufacturing at Athani Industrial Development Plot No: 2 Peringandoor, Thrissur District in Kerala

**P.J Georgekutty**  
Managing Director

### Message from our M.D

The Company founded in order to accomplish its chief goal - that is quality. For us, the passion to achieve and to deliver is prime important. Once you find out what your interest is, do everything possible and turn it into your passion. Instead of short term gains; plan for sustainability in market sphere by uncompromising consistency in quality, is our success formula. Motivated and committed team of talented staff is always there to keep us updated on technical advancements..

### Message from Executive Directors

Spinner group is based on uncompromised product quality from the company's inception day. We stick closely with our manufacturing process personally to assure quality in all areas. We, stand for timely delivery with high value standards with highest customer satisfaction. We ensure on environmental protection and thus a clean and healthy working environment.

P.J. Jaison

The tidy atmosphere in our workplace not only contributes towards safe operation and healthy environment, but also ensures minimal wastage and lower production cost which chiefly contributes towards our best in industry price-to-quality ratio. We encourage latest technology and installing latest machinery and manufacturing procedures, both conventional and innovative business solutions and services, quality health and environment protection to name a few.

Lijo Georgekutty

## VISION

To be the market leader by being the top innovative provider of highest quality-to-price-products and innovative solutions & services with least impact on environment and lead the industry by highest safety standards..

## MISSION

“Ensuring highest customer ratings through:

- Quality Products
- Customer Satisfaction
- Customer Relation
- Latest Technology
- Product Diversification
- Fastest Delivery

## QUALITY POLICY

Spinner Group manufacture products and provide services with built in quality, safety and reliability and timely delivery to the satisfaction of our customers. Spinner Group employees shall be accountable for duly satisfying our customers by meeting or exceeding their needs and expectations.

*Spinner Group is fully committed to:*

- High standards, statutory, regulatory and QMS requirements
- Continual improvement through effectiveness of the QMS
- In house training and education
- Modern & sophisticated plant & machinery
- Latest testing facilities

## QC LABORATORY & TESTING FACILITY

Our Inspection lab & testing facility is strictly adhere to stringent ISI standards and in compliance with BIS facilities and quality control procedures, governed by best in industry Quality Controllers & state of the art analysis procedures & machineries – which enable us to become number one in quality.

*Few of the parameters on which we quality test our products are as follows:*

- Dimensional Accuracy
- Raw Material Traceability
- Density test
- Hydrostatic Pressure test
- Leakage & Durability tests
- Smoothness and finishing

## INFRASTRUCTURE

We possess a comprehensive infrastructural setup which includes state of the art production units and Quality Control and Inspection Labs for efficient production. Presently there are four factories to manufacturing products to meet customer demand and also a separate marketing edifice. There is one design & fabrication unit dedicated as Power Transmission equipment provider for KSEB.

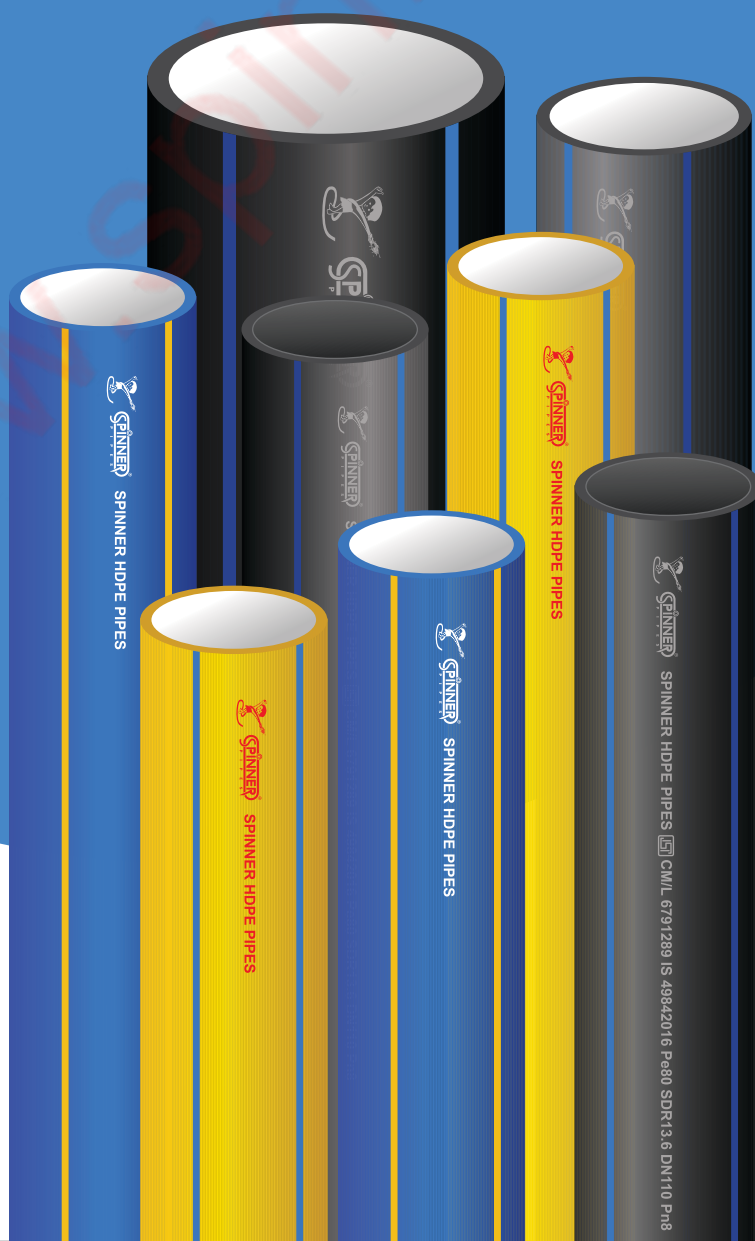

# HDPE PIPES

HDPE pipes are by far the safest tubulars to carry and supply potable water according to international standards. Spinner pipes is the first company to produce HDPE pipes under ISO certification in Kerala State.

To be best in quality we are using good quality High Density Polyethylene Granules manufactured by Reliance Petrochemicals, GAIL, Haldia Petrochemicals or Granules imported from Gulf countries.

There are 3 grades of materials are used for the manufacturing of Spinner HDPE Pipes i.e PE 63, PE 80 and PE 100 grade.

Spinner group is one of the first companies in entire Kerala state to adapt the latest BIS specified certification directives called IS4984-2016

# UPVC PIPES

We are the producer of world quality uPVC pipes using sophisticated machinery. Spinner uPVC pipes are manufactured in the range of;

20mm to 200mm (Both ISI and Non-ISI)

Diameters in 2.5, 4, 6, 8, 10 and 12.5 kgf/cm<sup>2</sup> working pressure.

PVC pipes mainly used for agriculture and potable water supply as per IS 4985:2021.

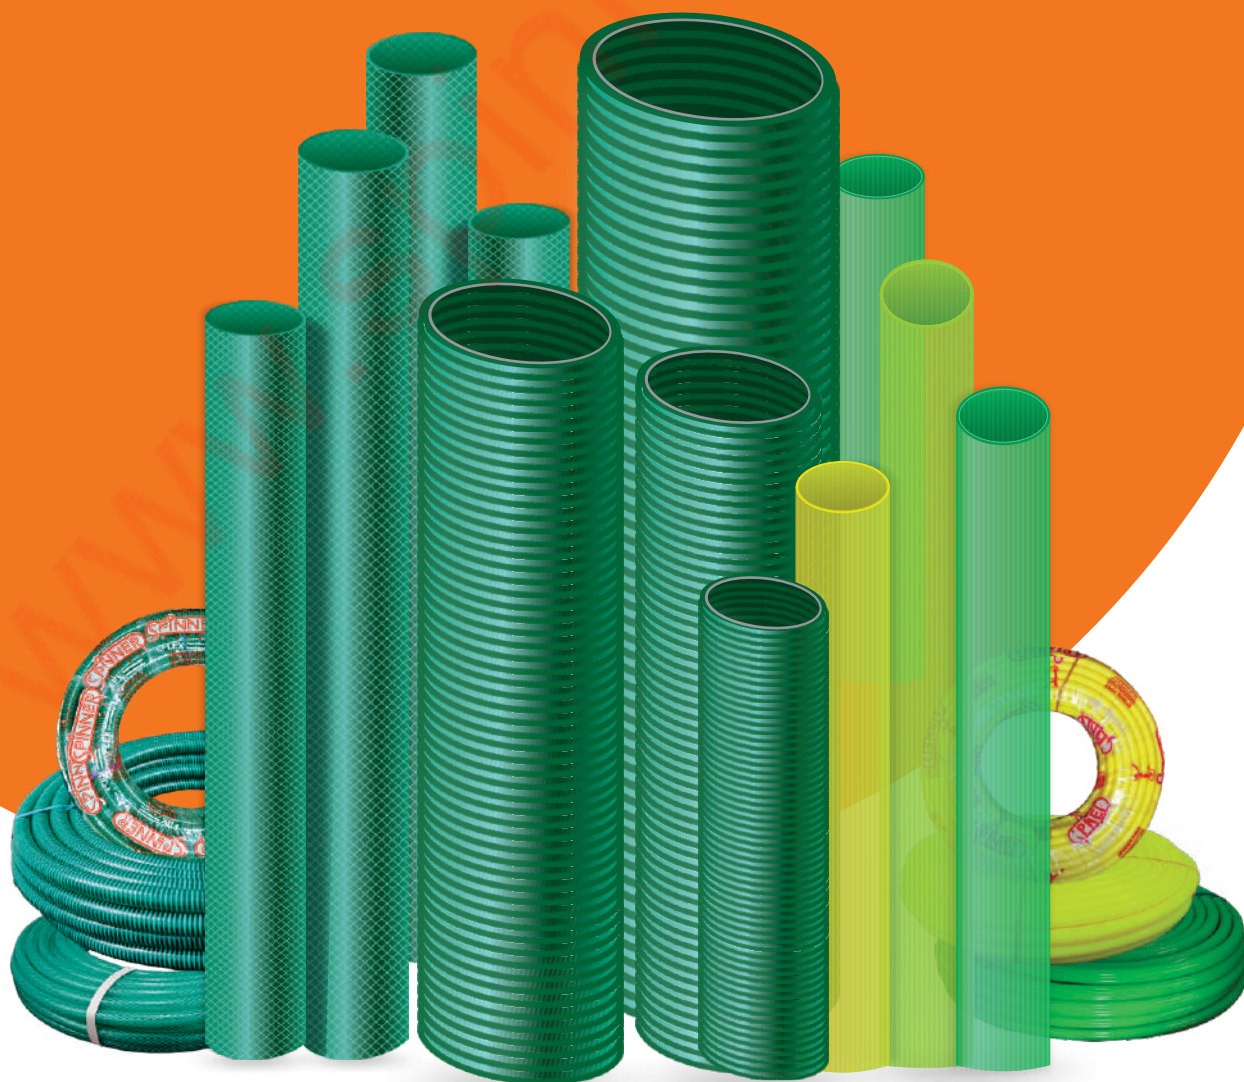

We also produce & supply Schedule 40 and Schedule 80 (non ISI) compliant uPVC pipes for Kerala govt water authority works.

# SOFT UPVC PIPES

- **Suction & Delivery Pipes (flex)**  
We manufacture suction and delivery hose having size range from  $\frac{3}{4}$ " to 2" in diameter.
- **Garden Hose**  
Our high quality garden hoses sold in  $\frac{1}{2}$ " and  $\frac{3}{4}$ " in size.
- **Braided Hose**  
Our durable Braided hose size ranging from  $\frac{1}{2}$ " and  $\frac{3}{4}$ ".

Braided Hose

Suction & Delivery Pipes

Garden Hose

# RAIN WATER GUTTER

## **Square Pathy**

Our Square rain water channels are indegenious with a semi ovalty to it's bottom inorder to avoid fungus accumulation and also ensure smooth flow of water. This is best suited for rainwater harvesting too.

## **Half Round Pathy**

PVC halfrounds are used for rainwater channeling and Rainwater harvesting. All fittings for these half rounds are supplied under standard sizes and as per customer requirements.

## **Pathy Fittings**

Square or Half round, whatever the market demands, we have all the fittings readily available to cater to customer demand.

# SPINNER WATER TANKS

Our HDPE water tanks guarantees high quality and made from food grade material, and meets all the safety norms laid by the government. Spinner water tanks varying in size from as small as 200 Liters, through 300, 500, 750 & 1000 Liters in various colours

# SPINNER WATER BARRELS

Spinner has recently introduced their barrels in the size range of 50 Liters through 80, 120, 140, 180, 250 and 300 Liters in size. This product comes in a very handy shape and very reliable. Best suited for both commercial and domestic applications

# UPVC CONDUIT PIPES

We produce highest quality to price uPVC conduit pipes for the local market. There are different pipe categories according to their wall thickness such as concrete, direct burial and exposed work. PVC conduit may be heated and bent in the field, by using special heating tools designed for the purpose.

# LDPE PIPES

Our range of LDPE pipes is made from superior grade raw materials and these LD pipes are excellent for low pressure applications.

# EXHAUST FAN PIPES

Exhaust Fan pipes are ready made and can be easily fitted into exhaust openings according to fan sizes.

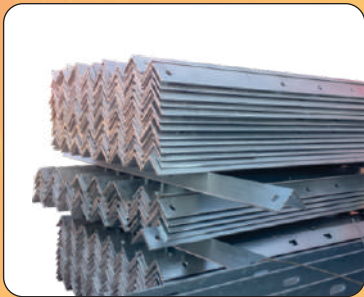

# FABRICATED BENDS

We have comprehensive range of pipe fittings according to different applications and customer requirements. In plumbing, uPVC bends such as 'S' bends are widely used to reduce cost and save time. We provide high quality & reliable uPVC bends in different sizes from 1/2" to 8" throughout all pressure class.

## Power Transmission Equipments

We are the sole suppliers of electrical items such as Hotdip Galvanized Strips, CI earth plates, GI earth plates, Earth rods, Copper flats, 11KV rubber hand gloves, PVC line spacers, Different types of cross arms, LT pin with insulators, Stay wires, LT XLPE cables, Stay rods, 11KV disk insulators, AB switch spares, Hardware fittings, LT stay insulators, HT stay insulators, Tinned Copper fuse wires, Brass/SS/MS / GI bolts & nuts etc. We are the only supplier in kerala for patented anti-theft polycarbonate security seals for the new generation digital electricity meters.

2 Line Cross Arms

4 Line Cross Arms

V Cross Arms

Polycarbonate Security Seals

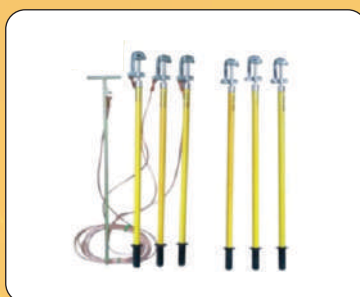

Brass/MS/ SS/ GI Bolts & Nuts

Hotdip Galvanized Strips

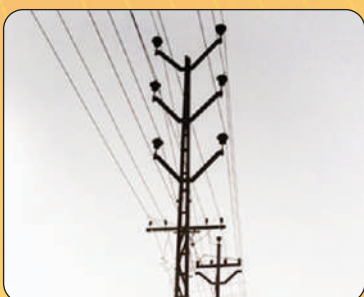

CI Earth Plate

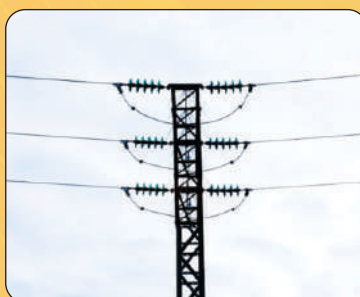

Earth Rod

GI Earth Plate

'A' Type Poles

Lattice Type Towers

Lightning Arresters

## Power Transmission Equipments

Copper Flat

11KV Rubber Hand Gloves

LT Pin Insulators

Polymer HT Pin Insulator /  
HT Pin Insulators

Stay Rods

Stay wire / GI Wire

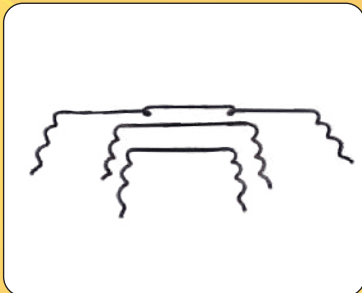

Polymer Disc Insulator /  
11KV Disk Insulators

AB Switch

LT & HT Stay Insulators

PVC Line Spacer

Tinned Copper Fuse Wires

LT XLPE Cable
